THE VOICE OF BRITISH NATIONAL SOCIALISM

£1

SMACK-HEADS; CRACK-HEADS; PILL-POPPERS AND TAB-DROPPERS.

The Drug sub-culture is a multi-cultural, multi-racial lifestyle, it thrives best in a liberal environment and contaminates and subverts everything it comes in contact with.

Alongside continued non-white immigration and race-mixing the greatest threat to our Nation and Folk is the drug culture. Every aspect of it is poison to our people from the physical effect it has on individual citizens; to the crime it spawns; to the multi-racial street style it generates; the music and fashion styles it develops around it and the alien criminals it supports. Those of our own people who become ensnared in drug taking quickly become laid back and liberal, tolerating anything and everything, betraying family and Folk. Those who live in the soft-drug and recreational drug culture are ideologically and morally brain-dead. Concepts like morality, loyalty, family, Race and Nation

mean nothing to them. They live for an easy going, free-loading lifestyle caring only for the company of like-minded mugs and the limited materialism of their world... sorted for "E's" and "Whizz" or sorted for "Gear"

They are as much of a threat to our Cause and our Folk as all the Third World invaders on our streets.

TIME TO KICK THEIR HABIT AND KICK THEM OUT!

This edition of Broadsword makes no apologies for hammering on about illegal drug trading, drug abuse and whole drug sub-culture because the use, abuse and culture of drugs is heading totally out of control here in Britain.

National Socialists cannot afford to ignore the drug problem just because it is a ghetto-based culture or thrives in the multi-racial society we reject. We must take notice because it is a poison which is running like an express train through our nation, coast to coast, city to city, out into the rural shires and villages.

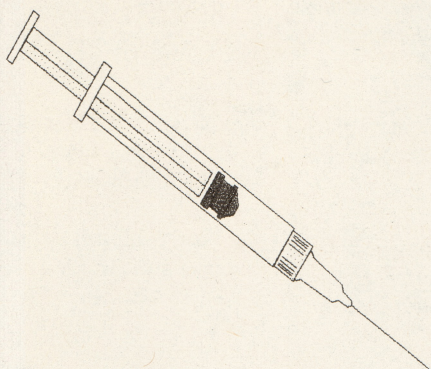

All cross our country especially in the no-hope inner city estates and unemployment blackspots the bored, futureless kids are drawn into drug use to escape their tedious, pointless, poverty and depression. This poison has spread to the unemployment struck

communities in the valleys of South Wales; it has spread across the former coal-mining communities of the Midlands, the North and North-East. But it has also spread out into the countryside, bored kids in rural backwaters now smoke dope, take "Ecstasy", "Acid" and "Whizz".

The drug culture threatens to destroy whole generations in Scotland where huge areas of working-class housing estates are infected by heroin. "Smack" together with needle-sharing and related diseases like HIV and Hepatitis is devastating cities like Edinburgh, Glasgow and Dundee. Glasgow alone has around 8,500 regular injectors of heroin according to the Glasgow Drug Problem Service with drug misuse as the commonest cause of death in 15 to 35 year olds. In other cities and towns like Paisley, Kilmarnock and Kilbride there are widespread problems in the abuse of Temazepam with a thriving blackmarket fed by burglary and theft.

In England there are major

Editorial

In this our seventh issue we turn our attention on what is poisoning our Nation and society, the imported toxin of drugs and drug culture. The whole drug scene from smoking "blow" to "dropping tabs" or "shooting-up smack", is an alien street culture which has been seeping into our nation's lifeblood for almost a century. Since 1945 the growth in the drug sub-culture and drug related crime has increased at an ever expanding rate, it will eventually destroy us as a society and as a nation. The drug culture together with the crime it spawns and the lifestyles it generates

poses as great a threat to our Race and Nation as immigration from the Third World. The whole spectrum of drug culture from casual use of soft drugs, to drug inspired music and dance fashions must be opposed and halted. National Socialism stands squarely against "recreational" drug use and the easy, multi-cultural lifestyle which tolerates it. The greedy, criminal parasites who run the drugs trade and the pathetic low life who operate at street level are not of our kind and must be swept into the gutter and crushed.

British Movement has no room for mugs who use drugs, they are part of

the problem.

The British Movement looks forward, and faces the future, seeking every means possible to change our Nation and bring about the National Socialist revolution.

WE BELIEVE....

RACE IS ALL. Our folk must again respect their past and strive towards their great destiny. We must instill in all generations an awareness of the importance of Race and purity of blood. Mongrelisation destroys the heritage and stifles all future achievements. Our civilisation is secure only in purity of blood and belief in destiny. All aliens must be resettled with their racial kin.

MONEY THE SERVANT A stable economy is one which reflects the true worth of the community. Money is a mere token of this wealth- a means of exchange to allow convenient trading of goods and services. Government must control all means of money supply and regulate its level with national productivity rates.

A NEW SOCIAL ORDER "Opportunity for all-privilege for none", the cornerstone of our virile new society. Rights must be earned by all citizens, wealth must not be allowed to secure extra benefits. All will have an equal opportunity to serve the community and derive benefit from that service, endeavour and initiative.

A PART OF NATURE We must ensure that the beauty and resources of our earth are preserved for the benefit of future generations of our folk. We must not waste or destroy the natural order-the balance of which is so vital for the well being of all life. Our new moral code will not allow scientists, businessmen and politicians alike playing at god in the name of curiosity, monetary gain or notoriety. The use of scientific knowledge for the petty considerations of individuals must not undermine the value of life. No abortion on demand.

BEYOND CAPITALISM AND COMMUNISM The ideologies of the old world strive for the total enslavement of all peoples. We are against the materialistic rat race of lust under Capitalism as well as the monotonous drudgery in the grey bureaucracies of Communism. **National Socialism** liberates the free thinking folk of the world to stimulate the development of civilisation.

EUROPE A FAMILY The peoples of Europe stem from a common racial root. We must enjoin in spiritual union for the defence of our freedoms against common enemies. Our strong Race founded bloc will scale new heights in all fields for the advancement of our vibrant culture.

THE ETERNAL STRUGGLE Mankind must continually strive for higher, better life-struggle for a brighter, more noble world. Each day must bring new challenges in the perpetual struggle towards greater civilisation. There can be no perfect world but our folk must strive towards its improvement leaving behind the decay of today's moribund world.

The thoughts and ideology of National Socialist Resistance

Tough policies to deal with tough problems

This issue of BROADSWORD has focussed on the menace of the drug sub-culture to our Nation. There has to be a firm stand taken against this organised poison and the culture it generates. National Socialism does not falter at the need for ruthlessness in the face of serious threats, a massive threat to our Nation and Folk calls for radical and effective solutions.

To eradicate the cancer of illegal drugs, the drug-culture and all its attendant social problems the British Movement advocates the following policies:

- 1) All foreign born drug addicts, drug dealers and drug smugglers will be interned then deported to their country of origin.
- 2) All criminals of ethnic minority descent convicted of drug related crimes will be stripped of citizenship

and deported to the country of their ancestral origins.

- 3) Any businessmen convicted of involvement in drug connected crimes; drug Importing/smuggling, money laundering, or financing drug distribution will be interned in work camps, stripped of all business assets and finances, then officially bankrupted.

- 4) Drug pushers and drug dealers in large scale importation of category "A" drugs like heroin, cocaine and morphine will be imprisoned for a minimum of twenty-five years.

- 5) Drug dealers and pushers involved in violent crimes and murder will be executed.

- 6) All registered and identified drug addicts will be sectioned under new mental health legislation and interned until completely de-toxified and certified "clean".

- 7) Any drug related racketeering

will draw a maximum twenty five years sentence.

The above are simple but harsh methods of clearing out the drug culture and associated criminal parasites. It has been suggested by one of our supporters that any criminal involved in running prostitutes In tandem with drug involvement be branded on the forehead with a letter "P" for pimp so that the whole community will see them for the trash that they are. This is a mediaeval punishment but possibly appropriate when dealing with human garbage.

Let those who would defile our Nation and our Race beware !

More Unorthodox Opinions by Jeff

I am a British citizen by right of birth. I am of White parentage, my parents were of White parentage. I cannot remember or know of any of my ancestors emanating from any other colour but White.

As a citizen by right of birth, I hold the right to be consulted as to whether or not

I would accept another race into my country. I am a human being, the government of the day did not apply human rights to me. The hypocrisy of the then government resides in the government of today.

We are governed by hypocrites who grant human

rights to foreigners yet deny them to the native British.

The British people have never been asked if they want a multi-racial Britain. So why have successive governments created it ?

drug problems in Merseyside, Manchester, Leeds, Bradford, Birmingham and London. The shooting wars between rival criminal drug gangs are a regular feature of inner city life in Manchester, Liverpool, Leeds, Bristol, Birmingham and an everyday occurrence in South London. The drug problem has spread down the motorway networks into the rural shires and market towns. Outside London and Manchester the highest seizures of heroin by Police and Customs were in West Yorkshire, Avon and Somerset, Cheshire, Lancashire, Suffolk and Sussex. The Home Office acknowledges that the problem is running out of control with a massive increase in the use of cheap heroin in country districts, areas like Shropshire, Oxfordshire and Dorset are now experiencing the heroin problems of the cities.

Crime goes hand in glove with drugs, greed, money and power on the streets. Kids with no money need to feed their habits either out of necessity or out of boredom. If you don't have a job then you steal to buy drugs or sell yourself. Prostitution and drug abuse go hand in hand. Pushers and pimps are often one and the same.

The drug culture destroys all the normal rules of family life and community, you cannot trust a junkie or a pill-head. Most addicted crack users are totally unbalanced. No guesses as to the ethnic origins of most drug gangs, pushers and dealers. The big importers are usually serious businessmen hiding behind respectable fronts. The drug barons and top dealers are making millions out of the misery they spread. The street soldiers are nearly always

ghetto kids who have only the pushers and pimps as heroes and role models. No surprises either that the big wheels in the illegal importation and marketing of heavy drugs like heroin, cocaine and the manufacture of "speed", "crack" and "Ecstasy" are not British. While it is true that our home-grown criminals and gangsters are not shy of making money out of drugs, they do not come anywhere near the scale of the "big-hitters"; the Colombians (cocaine); the Chinese Triads (opium/heroin); the Mafia (heroin/cocaine); Yardies (heroin/crack/skunk/cannabis); Nigerians (heroin/skunk/cannabis) Russian/Georgians (heroin/cocaine/morphine/cannabis) with lesser players like the Pakistanis handling heroin importation and minor European networks bringing in LSD/Ecstasy/Amphetamines etc. from the Netherlands.

Many of the bigger and better organised drug gangs are armed, usually with better fire power and more guns than the Police. The big operators can afford to bribe Customs controls overseas and use illegal immigrants as couriers and "mules" to smuggle dope and currency.

Whole areas of our inner city ghettos and sink housing estates are controlled by drug gangs and their fringe business interests of pimps and prostitutes, illegal clubs and drinking dens. The money generated by their "industry" pays for hundreds of street sellers, runners and enforcers. Drugs, cars, guns and mobile-phones give the gangs organisation and strength on the streets.

If for no other reason than the threat these heavily armed ethnic-minority mobsters pose to Nationalist and National Socialist activists on the streets, we must

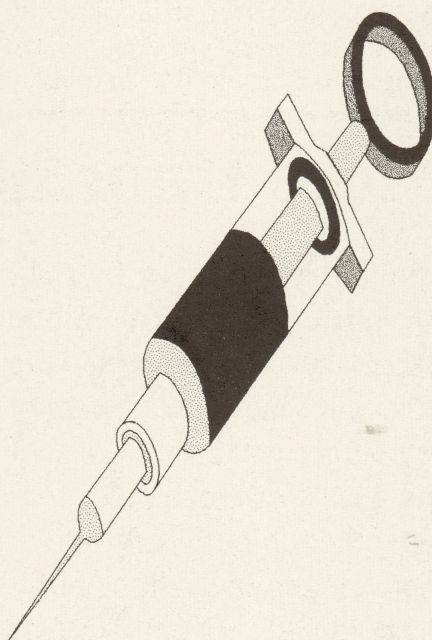

stand fast against the drug menace and the underworld it creates.

The problem is not only out in society but behind bars too, most prisons are riddled with dope smokers and fixers, every prison in the UK has a population of pushers, dealers and users.

The problem is massive and the problem is growing.

As National Socialists we totally reject the drug culture and must recognise that the whole drug scene is our enemy, top to bottom, every facet of its poisonous character must be fought, smashed and driven out of our communities and our nation.

If our Movement does not make a stand against the drug menace it will destroy the future generations of our Folk and wreck our Nation permanently.

The Gulf War

Five years on the truth begins to leak out

Five years after the Gulf War we increasingly find ourselves asking why and for who this war was fought and why the continued imposition of sanctions against the Iraqi people.

Initially we were told that we were fighting for the freedom of Kuwait. Well despite all the propaganda Kuwait is not and never has been a democracy and the Kuwaiti government is not a great respecter of human rights. It is ruled by a family who are only interested in their own personal enrichment. Indeed the Emirs first concern when the Iraqi invasion took place was to ensure that his personal horde of gold was put aboard his personal helicopter and promptly flew off to Saudi Arabia with it. So much for a leader staying to lead his country in adversity.

Why then did Iraq invade Kuwait ? It is very surprising that Iraq hadn't invaded before it actually did. Historically Kuwait is a province of Iraq and was only created in 1914 after the British divided up the area. The main reason was to stop Kuwait from continuing in their economic sabotage against the Iraqi people. In 1991 the price of oil was falling, and despite agreements limiting production by OPEC Kuwait increased their production of oil thereby driving

the price of oil down, oil that belonged to Iraq. Despite numerous pleas and then demands to stop this immediately by Iraq the Kuwait ignored them. Faced with having their own economy ruined by these actions the Iraqis had no option left but to invade. The day before the invasion the US Ambassador to Baghdad visited Saddam Hussian and it is rumoured that she stated that the US would deem any invasion to be an internal Iraqi matter, thereby encouraging them to invade.

We all know the rest of the story with the Allied build up and "Liberation" of Kuwait. But what not so many are aware of is the massive propaganda campaign waged against Iraq. First we are told that Iraq would invade Saudi Arabia, then we had dire warnings that they would use chemical and biological weapons that they had stock piled. Peculiar is it not that not one such stockpile or even shell was shown on TV. to prove this claim- could it be that they never existed outside the mind of Anglo-American psychological warfare officers ? Then we were told that the Iraqi's had pumped oil into the Gulf to prevent sea-borne invasion and had caused an environmental disaster. We were shown lots of footage of oiled birds, there were only two things wrong with this;

- a) The oil came from Iraqi tankers attacked by US fighters
- b) The footage of the seabirds was archive film taken at the Alaska oil spill.

what the next revelation will be. Now 5 years after the end of the war Iraq is still being subjected to UN sponsored sanctions Why ? Well the official reason is to obtain compensation for victims of the war. However if this were true then there are more than enough frozen Iraqi assets around the world that could be used to meet these demands. For the real reason you have to lift the veil of propaganda and hypocrisy. Iraq was and still is the most implacable enemy of the State of Israel and world Zionism., of all the Arab nations only Iraq had the will and courage to combat this nest of vipers. When the Scud missiles were launched on Israel could it be that the Iraqis had targeted the true enemy of peace ? No-one needs to tell us of the pathological hatred the Zionists have to anyone who dares to stand against them. The continued sanctions which have resulted in the starvation of Iraqi children and the dismemberment of Iraq's industrial infrastructure. These sanctions seem somewhat akin to the infamous Morgenthau Plan for Germany at the end of World War 2. Who would benefit from this destruction ? ...Israel. Hiding behind the UN and US government (both Zionist occupied zones) they are rubbing their Hebrew hands with glee at the destruction and suffering of their main opponent and at no cost to themselves.

There are some who may consider this article wrong because as we lost troops in the Gulf war we are somehow attacking their memory. Not at all. What we object to is the slaughter of our troops on the alter of Zionist interests. We would ask you to bear in mind,

a) More British troops were killed

by the Americans than the Iraqi's

b) The disgusting behaviour of the UK government who having turned our troops into human guinea pigs for the cocktail of drugs administered to them now deny that these untested drugs caused Gulf War Syndrome and even deny the existence of such a syndrome.

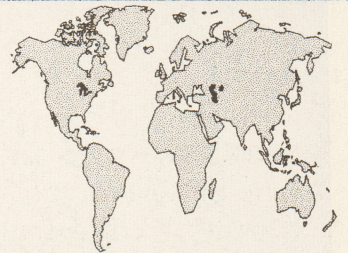

Meanwhile the medical records for

this period are being "lost" so no evidence can be found in support of the troops suffering from this illness. This is no way to treat men who are prepared to lay down their lives for their nation.

No British interests were served in the Gulf War and we demand that Britain cease to be a Zionist pawn and immediately lift all sanctions against the Iraqi nation and people.

EDUCATION

A recent report shows that 50% of primary schools and 40% of secondary schools are failing to meet the needs of their pupils. The media react as if this is some great surprise. It is something we have been warning about for years. If you can't speak basic English and spend more time brainwashing children with multi-cultural awareness than the three 'r's what do you expect. We believe it is no surprise to the government, indeed secretly it is something they welcome. They are afraid of an educated population who can think for themselves. Their ultimate goal is to turn our children into obedient slaves, acting unthinkingly, obeying the government whilst being paid the bare minimum in order that they can compete with the sweat shops of the East. If this is not true then why do the politicians send their own children to private schools? Could it be that they want to ensure they become part of the ruling class of tomorrow.

ISRAELI SPY'S

A recent report by the American National Security Agency has pointed out that many of its allies are spying on it. The main offender is none other than the state of Israel. Not content with bleeding the American taxpayer dry the Israelis are engaged in intense stealing of US secrets. This should come as no surprise to anyone who has had dealings with Zionists who will know them to be the most treacherous group ever to walk upon the earth. Recent US history proves this. The Goldbergs sold atom bomb secrets to Russia whilst more recently Israel began to sell off the Patriot missile defence system to China given to them by the US even before the Gulf War was over. Anyone who comes to the aid or does business with the "chosen people" will end up being stabbed in the back by them.

PAT BUCHANAN

The Sunday Times columnist Atticus recently lifted the lid, but

only slightly, on the power of the jews in the US media. He was writing about Pat Buchanan the populist Republican Presidential Candidate. It appears that the US media have declared Pat to be an "anti-semitic" Why? Well firstly he believes that American jews should have their first loyalty to America and not Israel and horror of horror she spoke out against the persecution of John Demjanuk a US citizen falsely accused of being "Ivan the Terrible", eventually even the courts of Israel, albeit reluctantly, had to release an innocent man. Well Atticus reveals some of the tactics used against Pat "*Between them (Abe Rosenthal and Frank Rich)...have used every ugly tactic to squelch the right of free speech of Buchanan and anyone who agrees with him*" He then recalls that when he, Atticus, criticised Rosenthal for his smear tactics Rosenthal tried to get him sacked from his job. He says "People such as Rosenthal and Rich- the latter being far more vicious and, in fact, downright anti-Christian, slander, smear and try to

Why Hitler ?

The importance of Adolf Hitler and the Movement today

Why is it that 51 years after his premature death that we still pay tribute to and honour the memory of Adolf Hitler ?

There are those who believe that it was all such a long time ago that today as we approach the new millennium Adolf Hitler is no longer relevant. **They could not be more mistaken.** Yes the physical being is gone, (and if we believe recent reports the Soviets only destroyed his remains in the late 1980's so terrified were they that his mortal remains would become a rallying point, a shrine for a new generation) but more importantly the spirit lives on and is stronger now than it has been at any time since the war. We can say with certainty that later this month more people will come together throughout the world to honour his birth than will ever come together to remember the war mongering drunkard Churchill or his evil partner in crime Roosevelt.

Even in the final days of his life the Fuhrer was planning for the future. In his political testament he laid down the guide-lines for the continuation of the National Socialist revolution. Selected men were chosen to continue the struggle in Werewolf units. Many

have considered the Werewolf a failure because they didn't overcome the Allied occupation, this is not true, the Werewolf were not merely a military resistance wing but more an ideological nucleus who would sow the seed-corn of revived National Socialism when the time was right. (Members will have read recently of the activities of SS Hauptsturmfuhrer Et Wolsink). We are now seeing the transition where the loyal old guard are handing the eternal torch of National Socialism to the next generation who go forward with confidence, valour and vigour into the 21st century. Spiritually the Blood Flag of the movement has been passed on and we promise to the old guard that we shall keep faith with the Fuhrer and his principles.

This does not mean that on the 20th April we shall dress up in SA/SS uniforms like extras from some Hollywood movie. National Socialism is a living creed, it has adopted to the new circumstances and has become the stronger for it. The enemy is terrified when we come together and appear in "normal clothing", a National Socialist wearing a business suit is more terrifying than one in SS uniform with full regalia. On a recent pilgrimage to Munich an international group of National Socialists observed a group of young Germans wearing the "Anti-fa" badge. We engaged them in conversation about their beliefs. Unlike those who like to call themselves "Nazi's" and who would

have attacked them whilst no doubt screaming "Seig Heil" ours was a frank and open discussion. It was an eye-opening experience for the young Germans because their media had led them to believe that National Socialism was only a German phenomenon, they were aghast that NS comrades had come from around the world to gather in Munich. One of them ended the conversation by saying "but you are more dangerous, you look normal and the people will listen to you" and all because we were wearing a collar and tie. These German youths went away questioning some of the myths they have been brain washed with. During the same trip now progressed to the Zeppelin Feld at Nuremburg the group come across a school teacher with about 20 young teenagers under his control. Apart from the usual lies we heard him say that the Nazi's were so evil because they made people march here all day without letting them use the toilet!!!, after our German Comrades had translated this for us we couldn't control our laughter, we then began to point out a few of the facts to the children. Unable to refute any of our facts the teacher ran off screaming for help and the police so afraid was he that our message was getting across. After asking them to think why the police were needed in a so called democracy to combat the peaceful expression of views we left. They may not have been converted to National Socialism but it made them think about how much of a

"democracy" they live in.

Even though our appearance has changed we bring the same message of salvation to the Aryan people of the world. Throughout the world National Socialist movements are fighting for the principles of National Socialism. The tactics may differ but this is only natural. National Socialism belongs to and is part of the folk, and absorbs some of the characteristics of that folk. National Socialism is not some form of transplanted pan-Germanism it is part of the Aryan identity common to all

Without the guiding beacon lit by Adolf Hitler none of this would have been possible, his book remains the number one best seller throughout the world and has been translated into more languages than any other book.

The enemy of our race may attack us, jail us even murder us but we shall not falter. The spirit of Adolf Hitler and the National Socialist martyrs world-wide march with us in spirit encouraging us onward, ever onward whilst new recruits rally to our flag everyday we go forward to final victory.

"It is necessary that I should die for my people; but my spirit will rise from the grave and the world will know that I was right."

The last words of the Fuhrer

"Fuhrer dies in action in people's struggle against world's mortal foe"

deprive people they do not agree with of employment" He also points out that these two work for the New York Times, which he calls the "Big Bagel Times" are now trying to deprive Buchanan of his journalistic livelihood after the election. This tactic is nothing new to those involved National Socialist politics. The zionists have always tried to have us thrown out from our place of employment or destroy our business's. In so doing they hope to deny us the means to continue the fight and scare others from joining our ranks. Sorry boys it wont work- by denying us our livelihood you give us more time to build the resistance. As Nietzsche said "that which does not destroy me makes me stronger"

EUROPEAN COURT BANS FREE SPEECH

Despite being thrown out last November by the the British Home Secretary the International Zionist cabbala have been

successful in passing a new law aimed at combatting "racism" and denial of the "Holocaust" throughout the European Community. It is now illegal to deny this alleged "fact" in every country except Britain. How long this country will be able to hold out against the pressure that will now be applied to the Government one can only guess. No doubt Mr. Blair will be eager to comply to the demands of the Board of Deputies and their European brothers. This is only the beginning how long will it be before Holocaust denial will result in automatic imprisonment where the "offender" is subjected to intense "re-education" similar to that formally practised by the Soviet Union. It is now important that we wake everyone up to this danger. Everyone must be told that their freedoms are being removed at the beck and call of a privileged minority. If **YOU** fail to help get the message out you are a coward and a traitor to your own race. *If you do not wish your children and grandchildren to curse your memory for allowing them to be enslaved get out on the streets and make people aware of what is happening.*

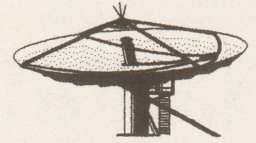

BRITISH MOVEMENT ON THE INTERNET

In line with our policy of using all methods of advancing the message of revived National Socialism British Movement has now launched itself on the Internet. This means that tens of millions of people around the world can now read about our policies and contact us. Never before have we had this ability. The establishment are terrified of the Net as it is impossible to censor. Your support has made this possible. With your continued support we can increase the size of our site. We can be reached at;

Germany Calling...

The major news here is the latest levels of unemployment in Germany. The official unemployment figure in Germany, and this is 'doctored' as in Great Britain, is 10.8%. Whilst in Berlin it is 15%. One can only guess at what the real figures are but reliable sources have quoted as high as 16%. Even based at the lower level of 10.8% this represents an unemployment level of 4.16 million people. Never has unemployment been so high here since the end of the last war. The old capitalistic, materialist order is collapsing and the only 'solution' that the Bonn regime can offer is the introduction of severe cuts in welfare payments. Naturally there is to be no reduction in the amount of money paid to Israel and there will probably be an increase.

Whilst the old parties are worried at this trend we of the National Socialist resistance welcome it. In the past the people, especially the young, have refused to listen to us as they were too busy surrounding themselves with the trinkets of the materialistic world. As long as they had a new car every three years, the latest video recorder etc, etc, they were unwilling to listen to our message of a New Order. Now that the old order is unable to supply these the people are beginning to wake up and realise that what we have been saying is correct. Since the very first days of the allied occupation the Werewolf cells produced propaganda warning the German folk of the illusion of western 'democracy' now they see that what we have been saying is true. The young people have realised that the present regime has forgotten them and that there is more to life than

individual en-richment, they care about the community, they care about the environment, they want a safe, secure future for their children. Despite the intense indoctrination against racial awareness, which continues throughout their life, the German Folk spirit refuses to be broken and the young are joining our National Socialist cadres in the hundreds. Due to the oppressive legal system here we have many different groups with many Leaders but we all follow the guidelines laid down by the movement in the past and apply it to today's problems, utilizing today's technology. An example of this is our use of computer networks and the Internet to spread our propaganda. The government have failed to understand this media and have banned Compuserve from giving access to National Socialist pages on the Net. All we do is use another server and we can still spread our views. No matter what what they try we will always find a way around it.

This brings me to the topic of a Michael Born who was a very popular 'documentary journalist', his speciality was the infiltration and exposing of so-called Neo-Nazi/Racist groups. All of the leading television stations were falling over themselves in giving him commissions to carry out the latest expose of the 'extremists'. Any programme on 'Neo-Nazis' is guaranteed to draw high ratings and Mr. Born was able to get hundreds of thousands of Deutschmarks for his programmes. When these programmes were

aired we told the people that it was all lies aimed at destroying our support in the Community but the majority of them ignored us and preferred to believe the Television. You have probably all heard of the 'evil' computer games called "Camp Commandant" etc where you score points by the number of prisoners you gas. No-one has ever been able to produce a copy of this game. This game was revealed by none other than Mr. Born who also exposed KKK gatherings in the German mountains and 'Neo-Nazi terrorists' armed with machine guns and anti-tank weapons. Well, Born was arrested at the end of January because surprise, surprise, he is a fraudster. It would appear that when he was commissioned to infiltrate extremists he phoned up his friends and they would dress up in KKK uniforms or wear ski masks, swastika armbands and shout Sieg Heil ! whilst giving the German greeting. The only genuine part of his programmes was the footage he used of legal National Socialist marches and gatherings. No doubt he will be let off with a light sentence as he was only quote "making the people aware of a real danger". The government have used such documentries as justification for their actions against us. They are worried at our increase in size and they should be. When the people wake up they will sweep away these scum who have betrayed us for the last 50 years.

The battle continues, one struggle, one victory. Hail the coming New European Order.

Nationalism in the Past

The White Defence League. Street Politics in the 1950's

Britain in the 1950's was a country in a political and economic whirlpool. Although the Second World War had ended in the previous decade, the country was still beset by the effects of postwar rationing, slow reconstruction of bombed cities and the rapid loss of Empire. One effect that the British population was totally unprepared for was the side effect of the dissolving Empire, the flood of non-White immigrants into Britain looking for jobs, housing, social, health and welfare benefits and the fabled "streets of gold" in London.

At first the bulk of the incomers were from the West Indies, the great floods of immigrants from Asia and Africa would come in the 1960's. The West Indians began to settle in key areas of London, the West Midlands, Manchester, Liverpool, Nottingham and Bristol. Very quickly there were protests by the ordinary British people about the crowds of West Indians moving into cramped working class neighbourhoods. There were riots in Nottingham in 1958 and in the Paddington and Notting Hill districts of London. There were smaller less publicised disturbances in other towns all reflecting the grass-roots opposition of ordinary people to the influx of non-Whites. The majority of these incidents were not organised by any kind of political grouping but very quickly patriotic and nationalist groups sprang up to oppose the "coloured invasion" as their newsheets called the waves of immigrants.

One of the early organisations was The White Defence League, founded in 1956 by Mr Colin Jordan, at that time a school teacher in Coventry. The White Defence League had its base in West London at the heart of local resistance to immigration. The WDL produced a newsheet called "Black and White News" which openly attacked unrestricted coloured immigration into Britain, drew attention to crimes committed by immigrants and opposed race-mixing. The leaflets and propaganda produced by the WDL were openly anti-black and were able to broadcast material which would be illegal today. (The Race Relations Acts and Community Relations legislation did not

exist at this time). Only the 1936 Public Order Act restricted what the WDL could do and say.

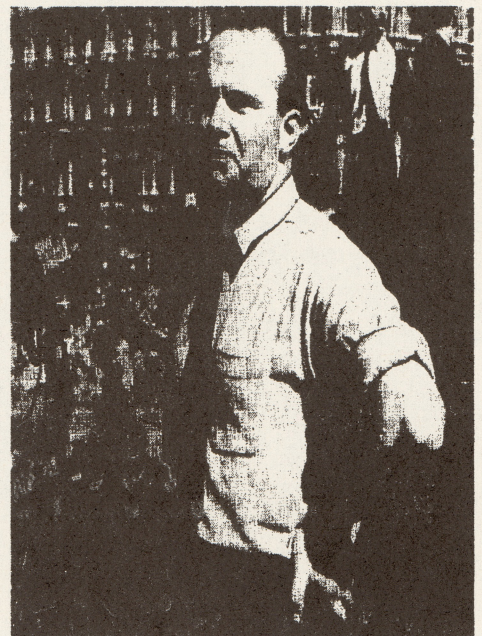

The White Defence League had its Headquarters at Arnold Leese House at 74 Princedale Road in Notting Hill, London. The property had belonged to the late Arnold Leese and was made available to Colin Jordan by the widow Mrs. Leese. The WDL campaigned hard through 1958 and 1959 selling over 700 hundred copies of "Black and White News" in London during the period of the 1958 summertime riots. Despite opposition from organised Communist gangs, Jewish "fighting" groups and roving gangs of immigrants, the WDL leafleted, sold its papers on the streets, held street corner meetings and supported the election campaigns of anti-immigration candidates.

In March 1959 the WDL disrupted a meeting at Westminster's Central Hall held by the Movement for Colonial Freedom and Committee for African Organisations. The meeting was supported by the Labour Party and quickly turned into a punch-up as WDL supporters threw smoke bombs and fought with Labour Party stewards.

In May 1959 the White Defence League began to grab the attention of the national newspapers on an almost weekly basis. The WDL held a number of high profile public meetings sometimes sharing the platform with another anti-Immigration organisation the NLP. In late May the front of the headquarters of the WDL was daubed with red paint by left-wing opponents and there were other hostile attacks on the Princedale Road premises. May 1959 saw the high point of WDL activity with a highly publicised rally in Trafalgar Square the White Defence League once again shared the platform with the NLP, a large white banner was draped across the foot of Nelsons Column with the slogan "Keep Britain White" in two foot high letters.

The street actions continued into the autumn again there were disruptions at election meetings this time at St. Pancras Town Hall.

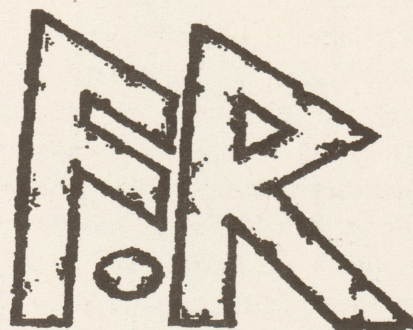

So frequently were the WDL and the NLP involved in the same campaigns that in February 1960 the two organisations merged to create the British National Party (the original version) based at Arnold Leese House with Andrew Fountaine as president, Colin Jordan as national organiser and Mrs. Leese as vice-president. The White Defence League was now disbanded.

Colin Jordan, leader of the White Defence League, tells a meeting at Trafalgar Square: "We must keep Britain white!"

LETTERS TO THE EDITOR

Dear Sir,

I thought I would give you an insight into today's prison regime. I can cope with the prison life, that's no problem, there's just a general attitude amongst white prisoners who act like they are black. When not using black slang they are playing the "brothers" music. All the major drug dealers here are black, whilst most of the heroin takers are white, the Prison Officers know who they are but are afraid to do anything. In a block of 23 prisoners only 3 don't take cannabis or other drugs. Most of the prisoners sit watching "Top of the Pops" listening to more black music with its very racially conscious lyrics. All of this strengthens my beliefs and needless to say I'll never change my opinions or the way I think the world should be. I'm out soon and can't wait to re-join the fight.

Dear Sir,

I was in Brixton on the night of the recent riot. I thought I would let your readers know what I experienced. I came out of Brixton tube station at 7.30 pm and there were a lot of police around. At the gig I was attending the main band, Therapy, said there was a riot going on outside and said "fuck the police". [The gig finished at 11.15 and by then they had closed down Brixton tube station and we were directed to Stockwell. Walking from Brixton-

everyone we passed was black. No doubt they had heard on the jungle grapevine about it and had decided to help their brothers. At Stockwell we found that it was closed but had a police presence there. I asked a senior officer "Have you upset the natives?" he wasn't impressed. The next day the media went into overdrive trying to make out that the riot had involved both black and White. The demo was or-

ganised by the "National Black Caucus", so why should any Whites be involved. All the usual experts were on hand to offer the remedy for these poor unfortunate black "victims". It always amazes me that if a white person is killed we don't go out and riot, the blacks do. Of course NOT ONE 'expert' has appeared on TV and said "I'm sorry, but the multi-racial society isn't working". More riots, more pampering the culprits, what a joke the main political parties are.

Dear Sir,

I thought I had to send you a few lines to congratulate you on your magazine. A friend sent me a copy and it made a refreshing change from the usual 'nationalist' papers

available here in Scotland. It is good to see that true National Socialism still has a voice in Britain today. Please send me details of how to subscribe and send prices for 'bulk' copies as I feel I have to spread the National Socialist message here in Scotland

Due to a computer error the last part of our letters page was cut off. Because we think it important we re-print it in full below.

"The following letter was published in the Daily Telegraph on November 30th. It was a surprise that this was allowed through by the 'powers that be'. Another small sign that our people are beginning to awake.

"New World Order"

Dear Sir,

My wife and I have just made our annual visit to the capital. We noted that it is cleaner - but the number of beggars on the street had increased.

On comparing notes we also agreed that the beggars all seemed to be young, able-bodied, white English speaking males. Yet, a large percentage of the shop assistants were young female foreign and often possessed only a basic command of English.

We thank our many readers who send in letters. Space prevents us from printing them all, but keep the letters coming. Let's hear your views.
